New photography exhibit at the KU School of Medicine–Wichita

WICHITA, KAN. – “Celebrating the Biodiversity of Paraguay in its Bicentennial,” an exhibit by various artists will be unveiled March 3 at the KU School of Medicine–Wichita, 1010 N. Kansas.

The exhibit, which runs through April 6, consists of 20 photographs of species, places, and ecosystems in Paraguay.

The objectives for this exhibit include showing the biodiversity in Paraguay, raising awareness of the importance of biodiversity, and promoting the country as a great place to enjoy ecotourism.

The gallery is free and open to the public from 8 a.m. to 5 p.m. Monday through Friday in the William J. Reals Gallery of Art-East.

The KU School of Medicine–Wichita educates doctors for Kansas while improving the health of Kansans through research and innovation.
